

FRANKLINS DELI

Franklin's Deli is a deli with a difference.
In the heart of the commercial district in
Liverpool; we are an independent company
committed to producing the best quality food for
use in our own deli and for our trading partners.

it is what it is...

WELCOME TO FRANKLINS DELI

At Franklins Deli we believe that the products we use, where ever possible, should come from local suppliers and local growers because it is the right thing to do. We will never buy frozen chicken from overseas just because it's cheaper or cartons of pasteurised eggs because they are easier to use.

We are committed to a local supply chain; that means that all of our fresh produce comes from within a 50 mile radius. We manage our carbon footprint by purchasing direct from the farm cutting out 2 layers of distribution.

What little produce we do import, such as the finest tasting Olive oil, the carbon footprint is offset by our committed approach to minimising packaging and using a local supply chain.

HEALTH & WELL BEING

At Franklins Deli we are committed to giving our customers the opportunity to make informed choices about what they eat. We believe in good honest cooking and we understand the benefits of Low GI, low dairy, super foods, and getting your 5 a day, and so our menus offer just that.

All of our staff are trained to the highest standard; they know where our food comes from, how it is made and which health category it fits into.

We are committed to using fresh ingredients; we do not use obscure powders or flavourings. Our carrot cake contains fresh carrots and where ever possible we only use unbleached and unrefined flours, natural sugars and honey.

OUR CAKES

Our cakes are made to specific recipes developed over time using real ingredients such as sugar, flour, butter and eggs, no nasty powders and emulsifiers, just honest, natural ingredients.

We make Chocolate Brownies, Carrot Cake, Millionaires Shortbread, Liverpool Shortbread, Genoa Slice, Almond Slice, Muffin Loafs, Tiffin, Ginger Cake, Pastry's and our luxurious Fridge Cake.

OUR SANDWICHES

At Franklins Deli we are passionate about sandwiches. As you would expect, we are committed to using only the freshest most flavoursome breads and homemade fillings, such as our Deli beef with gherkins and capers and our amazing roasted chicken with bacon and avocado.

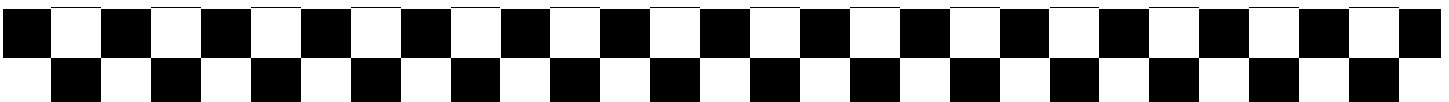

At the deli our speciality is our *Salt Beef sandwich*, succulent brisket of beef, rubbed with herbs and spices and slow steamed for 6 hours, served with deli mayo, sliced cucumber, sauerkraut, Swiss cheese and deli potato salad.

Whether it's to eat in at Franklins Deli or to eat out where ever you are in the world, our sandwiches are made lovingly, using locally sourced ingredients, light on the dairy, low on the GI, full of flavour and with the knowledge that we are trying to do our bit.

PENNY ON

Franklins Deli passionately supports the charity Penny On, we give every customer the opportunity to add a Penny On to their order which we match and pass on to Penny On who then do all the hard work for people who don't have the same opportunities in life.
